

A Historic Press Conference of National Significance

How Georgia 2020 Election Results Were Electronically Manipulated

*With Safe, Secure and Honest elections...
None of the following would have occurred.*

Garland Favorito, VoterGA Research Team

Introduction Points

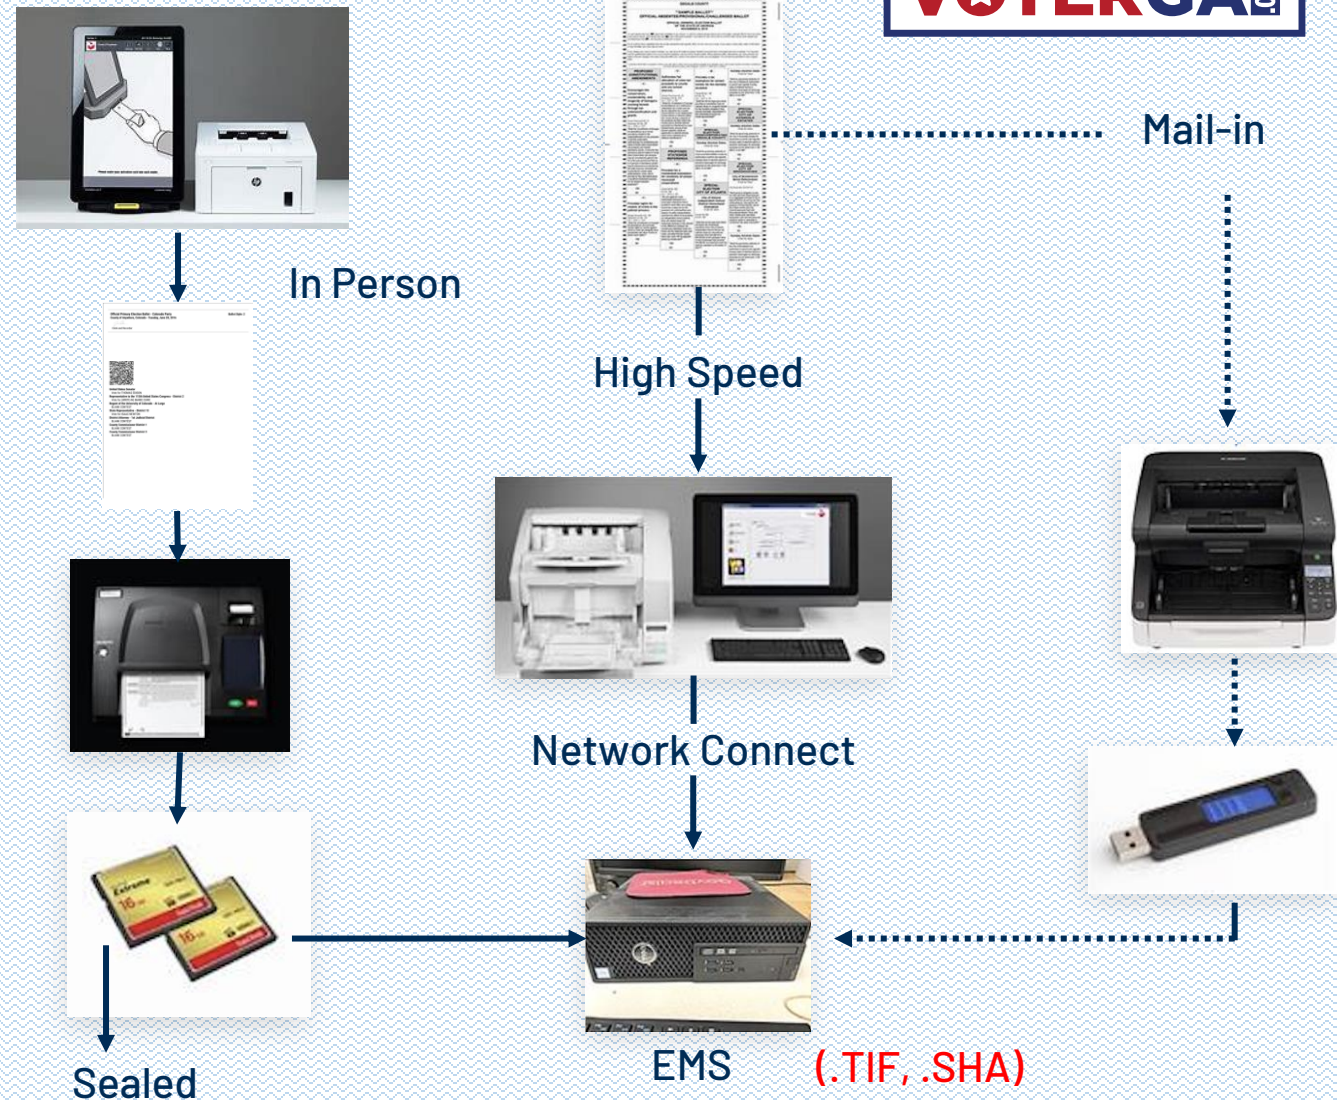

- I. SB202 made ballot images public record after our lobbying efforts in 2021
- II. Our volunteer team performed a statewide analysis of Nov. 2020 ballot images
- III. Our findings based on original ballot images obtained via ORR & legal discovery
- IV. Fulton Co. is our example but other counties appear to have similar problems
- V. Anyone can verify our findings based on ballot images available at GAballots.com, other sites or through their own separate ORRs
- VI. SOS Raffensperger could have done the same analysis and reached the same conclusions we will reach today before he certified the 2020 election

How Ballot Image Creation Works

VOTERGA.ORG

- Ballots are scanned to automatically produce digital images and cast vote records that are tabulated
- Scans produce a .TIF image and a .SHA signature file for the image
- In person images are stored on redundant compact flash cards
- Mail-in ballot images are stored on memory sticks and loaded to election management server (EMS) or loaded directly to the EMS

How Ballot is Processed

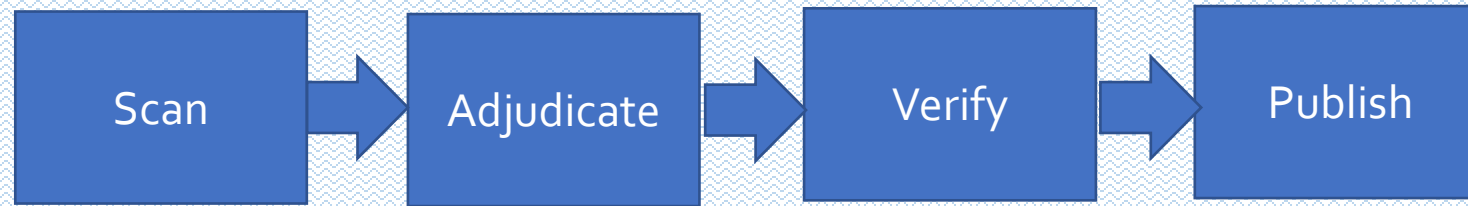

1. Scanning –
2020 Election Paper Ballots are scanned
Ballot Image (.TIF) was created in two pages
2. **Cast Vote Creation** –
Ballot Image is analyzed using OCR
Cast vote record is created on Page 3 w/ Auditmark
signature file (.SHA) is created
3. **Adjudication** (Optional) –
If ballot has questionable marks it goes to adjudication
3-Member Review Panel should review & approve the
vote changes confirming the Voter's intent
Adjudication section is created on Page# 3

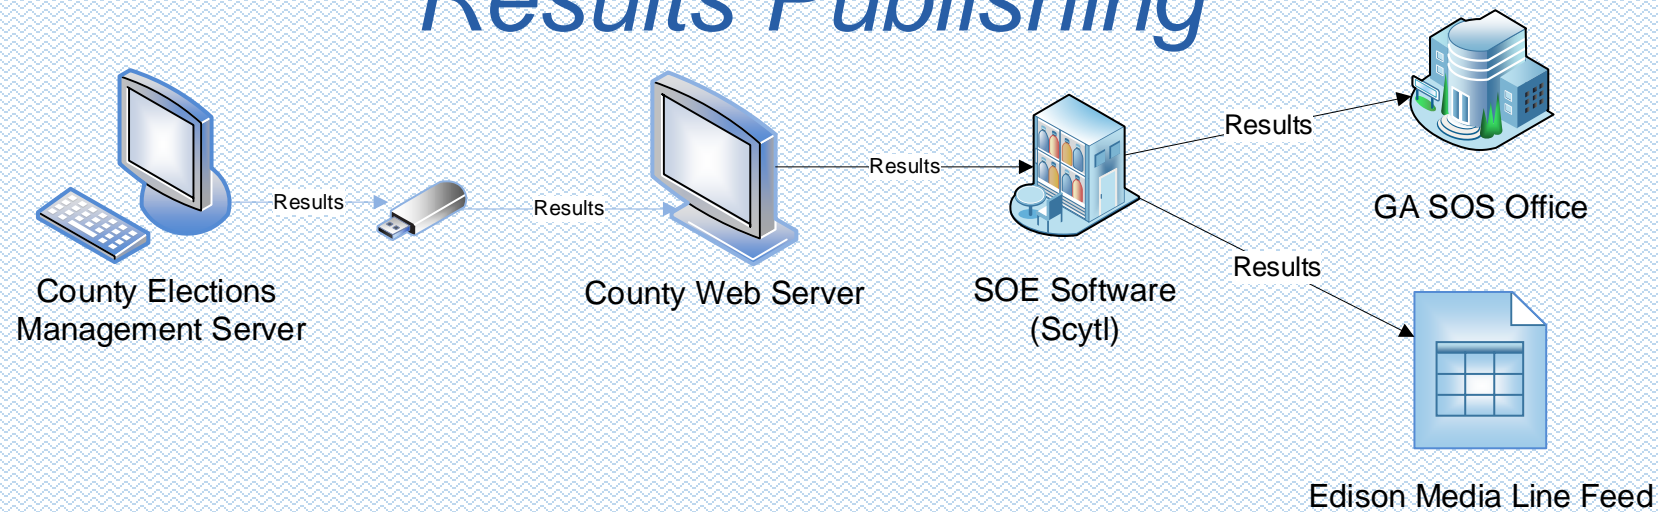

Process Sequence

Fulton Co. 15 point Election Manipulation Evidence

VOTERGA.ORG

1. 17,724 final certified Fulton votes have no ballot images
2. All 374,128 in-person ballot images for the original count are missing
3. 132,284 mail-in ballot images cannot be authenticated due to missing .SHA files
4. 4,000+ tabulator images have impossible duplicate time stamps
5. 104,994 image files in 1,096 batches have impossible, duplicate time stamps
6. All ballot batches were improperly forced to adjudication to facilitate tampering
7. 10 ballots were impossibly adjudicated in one minute by one user
8. 941 Image files were backdated prior to adjudication
9. All 16,034 mail-in image signature files were added days after scanning
10. Same 12 tabulators closed 148 early voting polls masking identity of scanning tabulator
11. One tabulator serial# impossibly closed two polls in same overlapping times
12. One tabulator was never closed and could have added many illegitimate votes
13. Images in 288 batches have backfilled time stamps out of scanning chronological order
14. 85 closing tapes for 12,024 Election Day ballots are unsigned or missing
15. All but two tabulator closing tapes for early voting are unsigned

Why don't 17,724 final certified Fulton votes have ballot images?

1

- The Dominion system requires a ballot image to tabulate results
- 17,724 certified Fulton Co. Presidential recount votes have no ballot images

2020 Georgia Presidential	Election Day			Advanced In Person			Absentee Mail-in			Provisional			Total Variance
	Ballot Images	Certified Results	Variance	Ballot Images	Certified Results	Variance	Ballot Images	Certified Results	Variance	Ballot Images	Certified Results	Variance	
Undervotes	232	232	0	666	700	(34)	1,463	1,463	0	19	19	0	(34)
Overvotes		0	0		0	0	41	41	0	2	2	0	0
Donald Trump	18,701	18,701	0	84,034	88,312	(4,278)	29,536	29,536	0	697	698	(1)	(4,279)
Joe Biden	35,659	35,659	0	213,518	226,818	(13,300)	115,724	115,724	0	2,008	2,011	(3)	(13,303)
Jo Jorgenson	1,367	1,367	0	3,047	3,154	(107)	1,728	1,728	0	71	71	0	(107)
Qualified Write-in		0	0		0	0	152	152	0		0	0	0
Unqualified Write-ins	147	147	0	1,353	1,354	(1)	29	29	0	7	7	0	(1)
Fulton Co. Total	56,106	56,106	0	302,618	320,338	(17,720)	148,673	148,673	0	2,804	2,808	(4)	(17,690)

IMPACT: 13,303 extra Bidens votes and 4,279 Trump votes cannot be substantiated

Why are all 374,128 original in-person votes missing ballot images?

2

- Federal and state law require election records to be retained for two years
- All 374,128 in-person ballot images from the original election count are missing

- State law: **24 Months** - [O.C.G.A. 21-2-500](#), [O.C.G.A. 21-2-73](#)

IMPACT: None of the 374,128 in person votes cast can be authenticated

Why are 132,284 Mail-in Ballot Images missing signature files?

3

VOTERGA.ORG

- Each ballot must be scanned to create a .TIF ballot image file and .SHA signature file
- Only 16,034 SHA files exist for 148,318 TIF ballot images
- IMPACT: 132,284 Fulton mail-in ballot images cannot be authenticated

How could 4,000+ mail-in ballots have duplicate time stamps?

4

- Canon and Fulton confirmed scanning a mail-in ballot takes one second or more
- 4,000+ mail-in tabulator ballots have duplicate scan time stamps to the second

IMPACT: 4000+ ballot images from impossible scan speeds cannot be authenticated

How could 104,994 ballots have duplicate file modified time stamps?

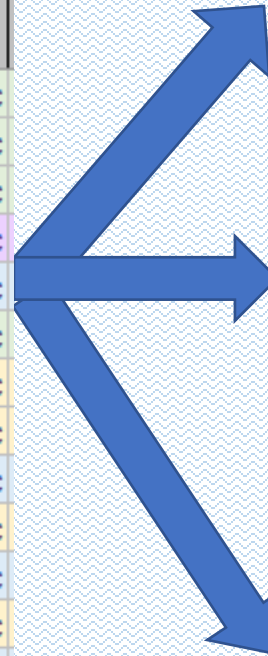

5

VOTERGA.ORG

- Batches contain about 100 ballots each with a unique modified time stamp
- 1,096 batches have duplicate file modified time stamps to the second

- **IMPACT:** Over 104,994 ballot image files electronically manipulated

Why were all ballots, in all batches, inerrantly forced into adjudication?

- Only questionably marked ballots should be sent to adjudication holding area
- Adjudication logs say all batches were sent to adjudication unnecessarily

Batch Record

Tabulator	Batch	Ballot Count	Scanning Start Timestamp	Scanning End Timestamp	File Modification Start Timestamp	File Modification End Timestamp	File Modification Time (Secs)	Adjudicated Ballot Count
729	023	55	11/4/2020 1:04:58 PM	11/4/2020 1:05:24 PM	11/4/2020 2:05:48 PM	11/4/2020 2:05:50 PM	2	0

Adjudication Log

Tabulator 729 **Batch 23** Summary

55 ballots didn't meet outstack conditions.

Tabulator 729 **Batch 24** Summary

11/04/2020 15:14:18

98 ballots didn't meet outstack conditions.

- IMPACT: All ballots incurred extra risk of electronic manipulation while in adjudication

How could one person adjudicate 10 ballots in one minute?

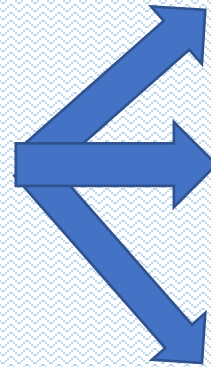

7

- One person typically takes more than a minute to adjudicate a ballot
- Logs show up to 10 ballots adjudicated in one minute by same person

Adjudicated By	Adjudicated At	Adjudicated Count
emsadmin06	11/5/2020 12:51:00 AM	2

- IMPACT: Impossible adjudication speeds indicate potential electronic manipulation

How could 941 images be adjudicated without being modified?

8

- The time stamp of a ballot image is always updated if it is adjudicated
- 941 images have file modification timestamp **BEFORE** Image Adjudication timestamp

Ballot Image File Name	Adjudicated By	Adjudicated Timestamp	File Modified Timestamp	Time Difference

- IMPACT: 941 images appear to been manipulated by tampering

How could non-adjudicated images be modified days after scanning?

9

- The file modified date should match scan date unless ballot was adjudicated
- 16,034 non adjudicated image files were modified 3-8 days after image scan date

Tabulator	Batch	Ballot Count	Scanning Start Timestamp	Scanning Time (Secs)	File Modification Start Timestamp	File Modification End Timestamp

- IMPACT: All 16,034 authenticated image files were subjected to tampering

Why did the same 12 tabulators close 148 early voting polls?

10

VOTERGA.ORG

- Each early voting tabulator should have been closed out for audit purposes
- All 148 early voting tabulators were closed out using 12 other tabulators

The image displays a collage of overlapping tabulator reports. A central box highlights the 'Unit Serial: AAFAJJS0001' across multiple reports. The reports show various voting locations and dates, all associated with the same unit serial and a protective counter of 148.

Voting Location	Poll Opened	Poll Closed	Report Printed	Unit Model	Unit Serial	Protective Counter	Software Version
AV-Mobile Bus One	Oct 23/2020 12:19:59	Nov 04/2020 01:35:00	Nov 04/2020 01:38:03	PCOS-320C (Rev 1072)	AAFAJJS0001	148	5.5.3-0002
AV-So Fulton Srvc Center	Oct 12/2020 08:09:59	Nov 03/2020 23:18:18		PCOS-320C (Rev 1072)	AAFAJJS0001	148	5.5.3-0002
AV-Roswell Library	Oct 12/2020 05:52:56	Nov 03/2020 22:26:54		PCOS-320C (Rev 1072)	AAFAJJS0001	148	5.5.3-0002
AV-No Fulton Svc Center	Oct 12/2020 05:47:52	Nov 03/2020 21:12:59	Nov 03/2020 21:13:45	PCOS-320C (Rev 1072)	AAFAJJS0001	148	5.5.3-0002

IMPACT: Original scanning tabulator for most early votes cannot be identified, vote counts cannot be verified using tabulator protective counter, chain of custody for votes is broken

How could a tabulator close two polls at once?

11

VOTERGA.ORG

- A tabulator can close only one poll at a time
- Several tabulators closed multiple locations concurrently
- Ex: Tabulator serial# AAFAJJY0174 used on 11/03/20 to close:
 - Georgia Intl. Convention Center poll location from 9:27pm to 9:35pm
 - Metropolitan Library poll location closing time **OVERLAPS** from 9:29pm to 9:30pm
- IMPACT: Votes on tabulator appear to be generated by tampering

Why wasn't one tabulator ever closed as required?

12

- Each poll location tabulator must be closed after it is opened to accept votes
- Closing Poll tape for AV East Point Library shows poll opened on October 12th 2020 but was not closed afterwards

(Last close date December 5th, 2019
before voting system was purchased)

Poll Opened
Oct 12/2020 06:11:55
Poll Closed
Dec 05/2019 03:02:31
Report Printed
Dec 05/2019 03:04:47

- IMPACT: Tabulator may have added many uncertified votes into the election results

Why do scanned images in 288 batches have wrong file modified timestamps?

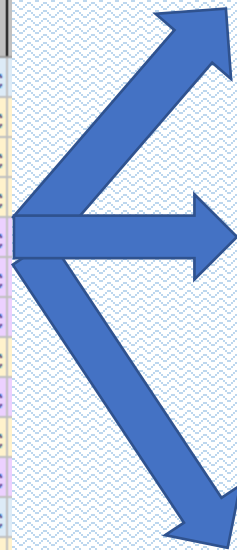

13

VOTERGA.ORG

- Ballot image file names and their modified timestamps must increment chronologically as scanned
- 288 batches contain images that have file modified timestamps out of chronological sequence after scanning

Tabulator ID	Batch Number	Ballot Count	Adjudicated Count	Batch Files Modified Within
5160	117	100	2	2 sec
5162	130	99	2	8 min 36 sec
5162	131	98	4	5 min 18 sec

IMPACT: Image files in 288 batches appear to have been electronically inserted

Why are 85 Election Day closing tapes unsigned or missing?

14

➤ Election Day tabulator closing tapes must be signed by the poll manager and two witnesses as required by Georgia law

➤ 59 tabulator closing tapes for 6,429 ballots are unsigned and 26 tabulator closing tapes for 5,695 ballots are missing

➤ IMPACT: 12,024 Election Day votes were not certified by poll managers and Fulton Co. should have never certified those votes into the Election Day results

Why are nearly all early voting closing tapes unsigned?

15

VOTERGA.ORG

- Early voting tabulator closing tapes must be signed by the poll manager and two witnesses as required by Georgia law

-
- All tabulator closing tapes from early voting except two were unsigned

The image displays five sample early voting tabulator closing tapes. Each tape contains a certification statement, fields for Name and Signature, and a 'Poll closed' timestamp. The first tape is signed, while the others are unsigned.

Tabulator Name	Poll closed	Signature
W-Georgia Inter. Conf. Ctr. 10P	Nov 03/2020 21:31:35	[Signed]
W-Retrovillian Library 10P 1	Nov 03/2020 21:34:56	[Unsigned]
W-Mobile Bus. Trs. 10P 2	Nov 04/2020 02:38:24	[Unsigned]
W-Cum Library 10P 4	Nov 04/2020 04:06:10	[Unsigned]
W-Saville Springs Library 10P 2	Nov 03/2020 23:32:49	[Unsigned]

- IMPACT: Nearly all 315,000 early votes were not certified by poll managers and Fulton Co. should have never certified the early voting election results

Conclusion

- Only one or two individuals with extensive voting system expertise needed to manipulate images
- These manipulation activities were performed without ability for most officials to detect them
- Fulton Co. allowed contractor and third party resources to run technical aspects of their election
- Those resources were not sworn to uphold the GA Constitution and were not monitored properly
- This evidence proves we must have an independent election audit. If not, why are we voting?
- There is currently no mechanism for accountability and a bizarre double standard of justice
