

## **GEORGIA VOTING SYSTEM RESOLUTION**

WHEREAS, a U.S. District Court order found Georgia's voting system violates Georgia election code statutes requiring an elector verifiable ballot and "... paper ballots which are marked with the elector's choices in a format readable by the elector";

WHEREAS, the Secretary of State entered into a contract to purchase the illegal voting system that accumulates votes from a Quick Response (QR) bar code;

WHEREAS, Georgia courts have continually held that contracts signed for illegal purposes are void;

WHEREAS, Georgia's voting system malfunctioned and produced incorrect results in certain counties during 2020 and 2022 but it was never forensically evaluated;

WHEREAS current Georgia law requiring only one race to be audited every two years is wholly inadequate to ensure accuracy of Georgia election results;

WHEREAS, the General Assembly has yet to pass any of several legislative bills to make ballots public and subject to Georgia Open Records Request law;

WHEREAS, senior poll managers submitted sworn affidavits that many counterfeit ballots existed in 2020 election results;

WHEREAS, low resolution Dominion ballot images that produce election results are inadequate to detect counterfeits and have proven vulnerable to tampering;

BE IT RESOLVED, the GRA State Convention insists our legislators and county officials immediately begin conducting elections on hand marked, serialized, security grade paper ballots hand counted at the polls;

BE IT RESOLVED, the GRA State Convention insists our legislators ensure all election processes are publicly verifiable and physical ballots become public record immediately upon election certification;
