Declassified Documents Prove President Trump Right on Elections

ATLANTA, GA. JULY 16, 2026 – President Donald Trump announced in his speech to the nation tonight **an unprecedented declassification review of 10 million pages of intelligence documents**, including emails and texts, detailing how U.S. elections have been compromised and continue to be insecure. Excerpts of up to 13,000 pages of declassified intelligence show:

1. Chinese adversaries **breached U.S. voter rolls to steal the identity of 220 million registered voters** and have used them repeatedly to exploit U.S. elections since 2020;
2. **U.S. intelligence officials covered up the Chinese breaches, other election interference and a massive U.S. election influence initiative** from January 2020 through June 2026 by refusing to brief Congress or Presidents Biden and Trump;
3. Venezuelan adversaries devised a **scheme to electronically hack into voting systems without detection** and were able to deploy it worldwide in voting system software;
4. A Democrat funded Michigan organization **conducted a fake voter registration operation** that submitted up to ten thousand false 2020 Michigan voter registrations. These crimes were **not prosecuted** by the Biden administration;
5. The Department of Homeland Security (DHS) purchased voter rolls that some states refused to give to the Department of Justice. DHS recently concluded that **278,000 non-citizens are registered in 18 states**, including some intentional registrations.

The newly declassified intelligence provides overwhelming evidence that:

1. **President Trump was right about 2020 election security all along;**
2. **Our own government officials withheld, or refused to act on, these urgent national security matters** and allowed the will of the people to be subverted;
3. Several national news outlets were **complicit in covering up the corruption** and even attacked those who have now been vindicated for reporting the truth.

Garland Favorito, co-founder of VoterGA, which has reported these types of election fraud evidence for decades added: *The President is declassifying and has presented evidence that illustrates what we have said for over a year: We are in the midst of a **major national security crisis** that poses a devastating threat to the security of 2026 U.S. elections.*”

VoterGA is a non-partisan, 501(c)3 registered non-profit organization created by a coalition of citizens working to restore election integrity in Georgia. We advocate for independently verifiable, auditable, recount capable, transparent and tamper proof elections.
