NSA Admits Withholding China Election Intrusion from President

ATLANTA, GA. AUGUST 3, 2026 – Several newly declassified intelligence documents released by President Trump on July 16, 2026 clearly expose the existence of a dreaded intelligence “*shadow government*” as [previously reported](#). One set of documents show that the National Security Agency (NSA) along with other groups in the Intelligence Community withheld election manipulation evidence from Congress and the Presidential Daily Briefing (PDB) throughout the 2020 Presidential election cycle. One such document shows an NSA Strategic Intelligence Analyst [admitting](#) that: “*We have deliberately massaged our one pending PDB to avoid any direct links to the election.*”

Those direct links that were withheld define an in-depth intrusion by the Chinese Communist Party into U.S. elections beginning in 2018. For example, the intelligence shows how:

- [China hacked](#), bought or stole access to [220 million voter records](#) to mine the Personal Identifying Information of Americans;
- China imported [20,000 fake drivers’ licenses](#) to be used for 2020 voter registrations;
- China conducted a massive [election influence initiative](#) to denigrate President Trump using social media, U.S. journalists and pressure on political and financial supporters.

In spite of such dangerous foreign interference, much of the Intelligence Community (IC) chose to withhold virtually all intelligence confirming it throughout 2020. Agencies involved in this coverup included the NSA, Federal Bureau of Investigation (FBI), Central Intelligence Agency (CIA) and the Bureau of Intelligence and Research (INR) for the State Department. This “*deep state*” coverup was instituted over objections from career staffers at the NSA and the Office of the Director of National Intelligence (ODNI), one of whom [wrote](#): “*The PDB isn’t going to tie to the election? The mind boggles*”.

Garland Favorito, co-founder of VoterGA, read all newly released documents and concluded: “*The declassified intelligence documents overwhelmingly prove we are in a national election security crisis and our own intelligence agencies have been compromised. Congress and the states have proven unable to protect American voters. We urge President Trump to declare a national emergency as the only way to secure future American elections.*”

VoterGA is a non-partisan, 501(c)3 registered non-profit organization created by a coalition of citizens working to restore election integrity in Georgia. We advocate for independently verifiable, auditable, recount capable, transparent and tamper proof elections.
